### **DEDICATION**

Dedicated to the memory of long-time publisher of the  
*Rutland Herald*, Robert W. Mitchell (1910-1993),  
whose assistance in obtaining the early issues  
of the *Herald* was invaluable.

## Introduction

The sixth compilation of news items from the *Rutland Herald* spans 1826-1830. We have done our best to try to locate all issues in this time period. This booklet is much larger than the other five we have done and consists of 97 pages of information and a 51 page index.

The first issue of the *Rutland Herald* or *Vermont Mercury* was published at Rutland, Vermont on 8 December 1794. The four-page weekly newspaper was devoted mostly to international, national and state events, especially on the political scene. It also carried notices and advertisements for the county, some local news, death notices and marriages. Due to the lengthy reports of hostilities in the South during the Civil War, publication went daily in April 1861.

Because the project of copying details from these newspapers is so massive and time-consuming, it was decided to release this information in five year increments. Every effort has been made to locate the missing issues.

The reader should be informed that when reading the obituaries and marriages that "this town" is Rutland; inst. refers to the present month and ult. to the month prior. Consort is the spouse; relict is the widow. These notices not only included Rutland, but various other towns in Vermont and other states. Unfortunately the state is not always listed after each town where the event occurred. The original spelling has been kept throughout. It must be noted that these notices were handwritten and were deciphered by the newspaper staff. Thus misspellings do occur. It is often difficult to read the microfilm due to the age of the newspapers.

Our sincere gratitude is extended to the following:
